### **DYNAMIC ALPHA MACRO FUND #1 RANKING MORNINGSTAR CATEGORY FOR 2024**

#### **DYMIX employs innovative structure and approach to lead all Macro Trading funds**

**Rockville, MD, January 13, 2025** – [Dynamic Wealth Group \(DWG\)](#) announced that its Dynamic Alpha Macro Fund (DYMIX) was the #1 performing fund for 2024 in the Morningstar Macro Trading category (60 funds).

Launched in July 2023, the fund combines two non-correlated strategies; a fundamental, global macro strategy paired with a balanced portfolio of US equities to help deliver a return stream that is uncorrelated to the broader market. “Leading the category for 2024 is an indication that our process and methodology is working and that DYMIX can be a valuable tool for most investors’ portfolios,” said Bradley Barrie, Managing Director and Chief Investment Officer of DWG. “We believe in multidimensional portfolio construction in hopes of providing a smoother investing experience for clients.”

The equity securities strategy invests in exchange traded funds that seek to provide low-cost broad market exposure. The futures trading strategy invests in long and short futures positions that seek to provide diversified return potential. The futures positions can include currencies, debt, equities, energy, metals, or agriculture. By combining the two strategies, DWG believes the fund can deliver a smoother investing experience compared to equity-only strategies.

“We are thrilled that DYMIX is being recognized so quickly by the industry. The Dynamic Wealth Group is an impressive team that brings a refreshing approach and real results to the investing community,” said Catherine Ayers-Rigsby, president of Advisors Preferred.
