ADVISORS PREFERRED ANNOUNCES WEBINAR SERIES “FROM CHAOS COMES OPPORTUNITY” COVERING STRATEGIES FOR THE VOLATILE MARKET

Top portfolio managers will lead sessions for financial professionals Oct. 20, 21, 22

Rockville, MD, Oct. 19, 2020 -- [Advisors Preferred](#), a leading fund manager with approximately \$1.5 billion in assets under management, announced that it will hold a webinar series, “From Chaos Comes Opportunity,” for financial advisors and financial professionals on Tuesday, Oct. 20, Wednesday, Oct. 21 and Thursday, Oct. 22. The session each day at 4:15 ET will feature top portfolio managers discussing strategies for advisors to help manage risk and maximize potential upside for clients in the volatile market.

“From chaos comes opportunity is the theme of our webinar series. For the investor in today’s market, a buy and hope passive investing approach is not enough. These sessions are designed to equip portfolio managers with strategies to assist their clients navigate the volatile market with active management to help mitigate risk and optimize potential return,” said Catherine Ayers-Rigsby, President of Advisors Preferred.

Details of each webinar are outlined below.

Tuesday, Oct 20 4:15 ET “Post Bear Market Strategies – Leveraging Low Volatility Funds”

This session will feature portfolio managers Michael Price and Lee Harris, managers of the Advisors Preferred OnTrack Core Fund, which has a five-star rating from Morningstar. The fund seeks total return while managing volatility and downside risk, by investing in stocks, bonds and commodities both long and short using technical analysis and risk control strategies.

Wednesday, Oct. 21 4:15 ET “A Flexible Trend-Following System”

In this webinar, portfolio manager Jason Teed will discuss strategies for portfolio allocation in rapidly-changing markets. Teed is co-portfolio manager for the Quantified Funds, a series of actively-managed funds that use dynamic asset allocation to adjust to market environments. The Quantified STF Fund (QSTFX) has a five-star overall Morningstar rating as of September 30, 2020, as rated against 224 U.S. tactical allocation funds for the last three years.

Thursday, Oct. 22 4:15 ET “Managing the Volatility and Opportunities to Come”

Ralph Doudera, portfolio manager of the Hundredfold Select Alternative Fund and the Spectrum Funds, will lead this webinar on opportunities presented by the choppy pandemic market. Rated

five stars by Morningstar, the Hundredfold Select Alternative Fund is actively managed to anticipate and respond to trends in various asset classes and donates its sub-advisory fees to various charities. The Spectrum Funds constitute a fund family built to actively manage risk and provide strategic exposure to help capture steady returns.

To register, log on to https://us02web.zoom.us/webinar/register/WN_VaA-EeBqTRiMqf7K_wmg5A Attendance is limited to financial advisors and financial professionals. Media are invited.

About Advisors Preferred LLC

Advisors Preferred (www.advisorspreferred.com) is a manager of mutual funds distributed to financial advisors and financial professionals. The firm helps advisors build their practices with actively managed mutual funds, as well as product consultation, market intelligence, product placement, sales reporting, and advanced trading. Advisors Preferred has approximately \$1.5 billion in assets under management as of October 15th.

Ceros Financial Services, Inc., Member FINRA/SIPC, serves as distributor to the Funds and is a commonly held affiliate of Advisors Preferred. Advisors Preferred and Ceros are not affiliated with the Funds' subadvisers.

Investing in mutual funds involves risk, including loss of principal. For information regarding the risks specific to the Advisors Preferred family of funds, please see each Fund's prospectus.

There is no guarantee any investment strategy will generate a profit or prevent a loss. There is no guarantee the Funds will achieve their investment objectives.

An investor should carefully consider the investment objectives, risks, charges and expenses of the Funds before investing. This and other information can be found in the Funds' prospectus and summary prospectus, which can be obtained by calling 1-855-650-7453. The prospectus should be read carefully prior to investing.

© 2020 Morningstar, Inc. All Rights Reserved. The information contained herein: (1) is proprietary to Morningstar; (2) may not be copied or distributed; and (3) is not warranted to be accurate, complete or timely. Neither Morningstar nor its content providers are responsible for any damages or losses arising from any use of this information. Past performance is no guarantee of future results. The Morningstar Rating™ for funds, or "star rating", is calculated for managed products (including mutual funds, variable annuity and variable life subaccounts, exchange-traded funds, closed-end funds, and separate accounts) with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The Morningstar Rating does not include any adjustment for sales loads. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance - figures associated with its three-, five-, and 10-year (if applicable) Morningstar Rating metrics. The weights are: 100% three-year rating for 36-59 months of total returns, 60% five-year rating/40% three-year rating for 60-119 months of total returns, and 50% 10-year rating/30% five-year rating/20% three-year rating for 120 or more months of total returns. While the 10-year overall star rating formula seems to give the most weight to the 10- year period, the most recent three-year period actually has the greatest impact because it is included in all three rating periods.
